

# 2017 LA84 Foundation Summer Splash Program

## Parents Information Page

This information is to assist you in understanding the LA84 Foundation Summer Splash program. The Foundation partners with 15 city and county municipalities to provide the program. The program is administered by the municipalities because their facilities are the location of service and their employees are the provider of services. Registration for the program is to be made at the pool location listed on the 2017 Summer Splash pool listing information sheet.

The program begins in June (specific dates vary by pool site) and culminates with a festival for each of the competitive aquatic sports. The date and location for each of the festivals is listed below. The program is intended to provide the youth of Los Angeles and surrounding communities the opportunity to compete on a novice level while learning basic skills in four different aquatic sports: diving, water polo, swimming, and synchronized swimming.

Not all pool locations will be offering all four aquatic sports available in the program, but you can see what is offered at a participating pool by looking at the Summer Splash participating pool listing information sheet.

The season meet schedule for all aquatic sports will be developed by the participating pool facilities and coaches. Each coach attends a clinic for their sport which assists and directs them in providing the basic skill sets of the sport to participants in the program.

Program information, coaches' manuals and program announcements are available by referencing the [LA84 Summer Splash page](#) at the [LA84 Foundation website](#). It is suggested that you visit this page regularly during the summer for up to date program information.

Entry into the festivals is accepted only from the coaches who supervise the summer program. Entry deadline and forms will be given to all coaches at the season Pre-Festival meeting.

### Dates and location of the 2017 Summer Splash Festivals:

<a href="#">Swim Festival</a>	<a href="#">August 12, 2017</a>	<a href="#">Santa Clarita Aquatic Center, Santa Clarita</a>
