

2019 LA84 Foundation Summer Splash Program

Parents Information Page

This information is to assist you in understanding the LA84 Foundation Summer Splash program. The Foundation partners with 15 city and county municipalities to provide the program. The program is administered by the municipalities because their facilities are the location of service and their employees are the provider of services. Registration for the program is to be made at the pool location listed on the 2019 Summer Splash pool facilities information sheet.

The program season begins June 1, 2019 and culminates with the festivals, dates and locations are below. The program is to provide the youth of the Los Angeles and surrounding communities the opportunity to compete on a novice level while learning basic skills of the four aquatic sports; diving, water polo, swimming, and synchronize swimming.

Not all pool locations will be offering the four disciplines offered in the program, but you can see what is offered at a participating pool by looking at the [Summer Swim 2019 Participating Pool Listing](#).

The season meet schedule for all sports will be developed by the participating pools and coaches. Each coach attends a clinic of their sport which assists and directs them in providing the basic skill sets of the sport to participants in the program.

Program information, coaches' manuals and program announcements are available by referencing the [LA84 Summer Splash page](#) at the [LA84 Foundation website](#). It is suggested that you visit this page regularly during the summer for up to date program information.

Entry into the festivals is accepted only from the coaches who supervise the summer program. Entry deadline and forms will be given to all coaches at the season Pre-Festival meeting.
